MEGA CONSULT LTD

Little things are the only things

Our Brief History

Mega Consult Limited was founded in 2012 and is a specialist company offering consultancy services in management systems (QHSE), Food safety and Pest control management .

Vision – Pest Control Division

To be a leader in the pest control industry by delivering the best pest control service using the latest proven technology in an environmentally responsible way cost effectively.

Mission – Pest Control Division

Consistently and flawlessly execute our specific and unique customer service experience that in turn produces enthusiastic referrals and recommendations from loyal and lifetime customers. Be a financially responsible and profitable division. Be an industry leader, respected and well regarded by customers, industry members and the community.

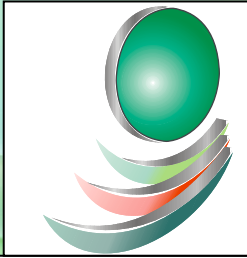

Objective (Triple “P” service)

- **PROTECT**- The customer from disease, fear and pain caused by undesirable pest activity.
- **PREVENT**- The recurrence of pest infestation and reduce the level of infestation to an acceptable level.
- **PURSUE**- Perfection as it relates to the inspection and identification of pests, environmental modifications techniques and the application of restricted and unrestricted use of pesticides, building a strong customer rapport and insisting on nothing less than providing the complete and unique customer service experience.

Our Management

Our management is composed of people whose combined industry background spans more than 60 years. Our technicians are highly trained and skilled pest control experts who possess professional credentials in Entomology, biology, chemistry and sanitation and related fields. They are fully conversant with the pest species, habitat, pest physiology, biology, behavior and safe use of chemicals/pesticides.

MEGA CONSULT LTD

Little things are the only things

Our Services approach

Mega Consult - Pest control Division provides pest control services to commercial, domestic customers and the public sector. Our network of teams puts a Mega Consult - Pest control Division service technician whenever you need one. We develop innovative, environmentally sensitive solutions for the detection, prevention and elimination of troublesome pests. Mega Consult - Pest control Division employs knowledgeable and reliable service technicians who are specifically trained in integrated pest management and experienced Quality Control supervisors who assure the highest standards are met with each and every service we perform. We take your pest problems personally by protecting your quality of life. Our Company offers quality, dependable, environmentally responsible methods to prevent pests.

Why Mega Consult - Pest control Division

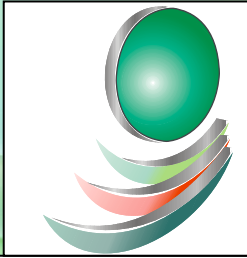

All pest controllers use the same chemicals or brand, what makes us different is:

- i. Qualified technicians who follow stringent policies and procedures governing the safe use of approved pesticides.
- ii. Comprehensive range of service;
- iii. Rapid response to emergency call-outs (24/7 emergency call out for our service contract customers;
- iv. Free surveys and quotations;
- v. Pest control and hygiene service provider (sanitary bins)
- vi. Unmarked vehicle (if required) to ensure discreet service;
- vii. For Corporate clients, Mega Consult Pest Control service Meet pest control requirements for international standards such as Hazard analysis and critical control points (HACCP), British Retail Consortium (BRC), International Food Standard (IFS), American Institute of Baking (AIB), Food and Drug Administration (FDA), Tesco and Marks & Spencer
- viii. Comply with the most complex local and European legislation on industrial hygiene, the environment, quality and residue tolerance
