Termite treatment review summary

- Mega Consult reviewed the treatment for termites on 4/6/2015 and wishes to report that:
- The termite treatment has effectively controlled the problem on all treated areas (see sample slides below)
- We would like to recommend that for all other areas not treated such as volleyball field and other areas adjacent to the football and rugby pitches you need to consider treatment to eradicate these structural pests.
- Mega Consult Limited will be glad once called upon to undertake a survey and quote for the remaining job.
